CREATIVE

Level 3 Certificate in Web Design

Course Introduction

Do you want a career in Web Design?

This Certificate will provide you with the opportunity to acquire the relevant knowledge and practical and technical skills to work in a web design team or as a freelancer.

This NCFE employer recognised certificate, will enable you to understand the roles and responsibilities found within a web design team and the components and concepts involved in web design. You will be able to create a web page using HTML, use elements for marking up text, add links and images, create tables and forms and be able to add other types of embedded content.

Qualification Structure

The NCFE Level 3 Certificate in Web Design mandatory units:

- Understanding the Web and Web Design
- Creating a Web Page Using HTML
- Understanding and Using Cascading Style Sheets (CSS)
- Understanding and Using JavaScript
- Understanding the Fundamentals of Web Images and Scalable Vector Graphics (SVG)

The assessment consists of 1 component which is an interally assessed portfolio of evidence which is assessed by centre staff and externally quality assured by NCFE.

Outcomes

- Understand the roles and responsibilities found within a web design team and the components and concepts involved in web design
- Understand how to create a web page using HTML and how to embed links and images into content
- Understand how to use CSS to format text and understand colours and backgrounds
- Understand how to use JavaScript to change elements, attributes and contents
