## What knowledge and skills will an apprentice learn?

Apprentices will learn through online workshops and one-to-one sessions with a Get Set UK Learning Development Mentor and specialist trainers, covering:

- Safe working practices, including PPE, COSHH, risk assessments, and workplace safety regulations.
- Using manual and powered equipment, with correct loading, unloading, and weight distribution.
- Warehouse processes for receiving, storing, picking, and dispatching goods, while spotting and reporting issues.
- Communicate effectively and use warehouse management systems in line with GDPR and cybersecurity rules.
- Stock rotation principles (FIFO, LIFO), conduct quality checks, and maintain accurate inventory records.
- Managing resources efficiently, recycling, and understanding the environmental impact of warehouse operations.

## What experience will the employer need to provide?

The apprentice will need to have the opportunity to regularly carry out the following tasks:

- Complete risk assessments for safety compliance.
- Practical experience with manual and powered handling equipment with proper operation and safety checks.
- Involve apprentices in processes from receiving to dispatching.
- Build communication skills for teamwork and documentation.
- Develop stock rotation, quality control, and inventory skills.
- Train on warehouse management systems.
- Promote resource efficiency, recycling, and waste management.

## What is involved in the end-point assessment (EPA)?

- Interview with portfolio of evidence
- Observation with questions
