

Bricklayer apprenticeship.

for a
better
tomorrow

A bricklaying apprenticeship is the first step into a hands-on, rewarding career in construction, with no experience needed. Apprentices will learn how to lay bricks, seal foundations, use specialist tools, and build safe, durable structures from the ground up.

Level 2	Subject area: Construction, Engineering & Green Skills	Duration: 24 months + 3 month assessment period	Delivery mode: Remote & face-to-face observations
---------	--	---	---

What knowledge and skills will an apprentice learn?

Apprentices will learn through online workshops and one-to-one sessions with a Get Set UK Learning Development Mentor and specialist trainers, covering:

- In-depth knowledge of health and safety regulations, including CoSHH, fire safety, and working in confined spaces or heights.
- Efficient use of recycling, and safe waste disposal.
- Principles of building fundamentals such as foundations, roofs, insulations and damp proof course.
- The correct skills for using and maintaining hand and power tools safely.
- Construction techniques and repair methods.
- Communication techniques, construction terminology, principles of team work and advocating for inclusion and diversity.

What experience will the employer need to provide?

The apprentice will need to have the opportunity to regularly carry out the following tasks:

- Conduct safety checks and risk assessments to ensure a safe working environment.
- Manage waste disposal through recycling and safe handling of hazardous materials.
- Assist in constructing and maintaining building foundations, roofs, and structural elements.
- Select, inspect, and maintain tools and equipment.
- Diagnose faults and carry out minor repairs for plumbing, drainage, and electrical systems.
- Communicate effectively with teams and clients.

What is involved in the end-point assessment (EPA)?

- Multiple choice test
- Interview underpinned by a portfolio
- Practical assessment with questions
